Dear Patient,

We would like to welcome you to Seidenberg Protzko Eye Associates. At Seidenberg Protzko Eye Associates, we are dedicated to providing you the highest quality, most advanced and experienced eye care in an atmosphere of respect, compassion and caring.

You will receive an automated confirmation call one to two days prior to your appointment. Please bring sunglasses during daylight hours, as your eyes will be sensitive to light if dilating drops are used for your exam.

Please note that a comprehensive eye exam may take between one to two hours. We strive to minimize waiting times; however, we ask for your patience and understanding in case of delays resulting from unexpected emergencies.

In order to facilitate your first visit, we ask that you complete the Patient Information Form and the Medical History Questionnaire and bring them to your scheduled appointment. Please review your insurance benefits and bring a paper referral if necessary. We will ask to copy your insurance cards and driver's license upon registration. Insurance co-pays are collected at the time of service. In addition, you may be charged a \$30.00 refraction fee if you receive a prescription for eyeglasses.

All patients under 18 years of age must be accompanied by a parent or legal guardian. If this is not possible, a letter authorizing treatment must be brought in with whomever accompanies the minor.

We are proud to be an accredited teaching facility allowing student doctors to assist us in patient care.

For Bel Air office patients, please allow additional time for parking and navigating the hospital campus.

We hope this brief introduction to our office has answered some of your initial questions. We will be happy to discuss any questions you may have during your visit. We look forward to meeting you.

Sincerely,

The Doctors and Staff of Seidenberg Protzko Eye Associates
